October 15, 2010.

NSI affiliates acquired the business of Plastics, Inc. (“PI”), a manufacturer of plastic nursery containers.

Effective October 15, 2010, Nursery Supplies, Inc. and Plastics, Inc., have formed a commercial alliance with their sales and customer service organizations to better serve the horticulture industry with a combined product line of nursery containers and expanded national service coverage.

“In the year that NSI celebrates its 50th anniversary, it is fitting that we take the next step in expanding both the breadth and availability of products and services to our customers”, said John Collins, CEO of Nursery Supplies, Inc. “Both NSI and PI have a long history of high quality products, innovation, and customer service in our industry. This strategic alliance, which will join the product line of PI with the experienced customer service and sales organization of NSI, will strengthen our capabilities in serving our customers for many years to come.” John Parker, founder and President of Plastics, Inc. added, “This alliance will give us the opportunity to concentrate on the development of innovative manufacturing methods and the expanded use of recycled materials with the ultimate goal of providing value to the nursery grower.”

Both NSI’s and PI’s entire line of products are now available for purchase through the NSI Regional Sales Managers and approved Distributors.

Nursery Supplies, Inc. was founded in 1960 and manufactures a wide variety of products using injection, pressure formed, vacuum formed, and blow molding technologies and is also the premier color, specialty and printed nursery container producer in the North American market. NSI has manufacturing locations in Chambersburg, PA, Kissimmee, FL, and Orange, CA. Plastics, Inc., founded in 1979, specializes in injection molded nursery containers and is a leader in the use of recycled plastics. PI has a manufacturing facility located in Jacksonville, TX and a distribution center in Woodburn, OR.
